

FIXED FRAME, THE MOST ECONOMICAL

Made-to-measure fixed insect screen — FIXE

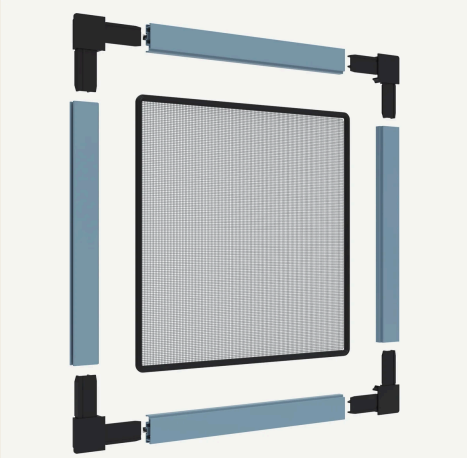

The simplest and most economical screen. A fixed frame with two fixing systems, for rarely used windows that need no outside access.

Recess fixing (A) | Hinged shutter fixing (B) | Removable | Cross-bar included

FIXED FRAME, THE MOST ECONOMICAL

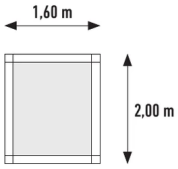

Simple, economical and removable

The FIXE is an aluminium frame with mesh, fitted in the recess or on hinged shutters, which comes off easily when not needed. It is ideal for rarely used windows, skylights or ventilation openings. Two fixing systems suit different installations: in the recess, with clip brackets, or on hinged shutters, with Z brackets.

- **Recess fixing (A).** Brackets screwed into the opening, onto which the screen clips. Included in the price.
- **Hinged shutter fixing (B).** Z brackets screwed into the corners, to slide the screen into the outer guides of the shutters.
- **Removable.** It comes off and stores away when not needed.
- **Cross-bar included.** From 160 cm high, the intermediate cross-bar is included.
- **Most economical.** The cheapest of the five ranges.

FIXE

How to measure

Measure the width and height of the opening at three points and always use the smallest figure. If in doubt, our guide shows you how, step by step.

On quote

Pet-resistant mesh (74 % stronger), cat flap, other colours and sizes outside the range: we make them on quote.

Frequently asked questions

Can I open it?
No: it is fixed. It comes off whole when needed. For a window you open every day, choose the ENROLA, CORRE or PLISSA mini.

Which fixing system do I choose?
In the recess (A) for most windows; on hinged shutters (B) when the screen must slide into the outer guides of a shutter. Small surcharge.

Which colours?
White, included, and matt black with a surcharge. Other colours on quote.
