ACCORDION PLEATED, MINIMAL PROFILES

For the passage you use every day

The PLISSA mini is the screen for openings you walk through often: the mesh folds like an accordion, opens with a compact handle and can stop wherever you want, with no stretching or forcing. The minimal profiles let in more light and take up little space. The patented joint system keeps the screen aligned and fitting simple.

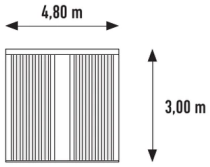

- **Stops anywhere.** It opens and closes smoothly and stays where you leave it — handy for airing without opening everything.
- **22 mm profiles.** The slimmest in the range: discreet, they let light in and fit narrow openings.
- **Compact, ergonomic handle.** Easy to grip, even for children and older people.
- **Patented joint.** Clip fixings in the closing profile that improve fitting and maintenance.
- **Four models.** Side-opening 1 or 2 leaves, reversible (opens either way) and vertical (rises and falls).

How to measure

Measure the width and height of the opening at three points and always use the smallest figure. If in doubt, our guide shows you how, step by step.

On quote

Pet-resistant mesh (74 % stronger), cat flap, other colours and sizes outside the range: we make them on quote.

Frequently asked questions

What is the difference between the four models?
Side 1 leaf opens to one side; side 2 leaves opens in the middle, for wide openings; reversible can be fitted to open left or right; vertical rises and falls, for windows and skylights.

Is it suitable for a patio door?
Yes, it is its most common use: up to 3 m high and, with 2 leaves, up to 4.8 m wide.
